

Adeguamento di una porzione lato sud-ovest del padiglione già proprietà "Tubimar Ancona s.p.a." ai fini dell'allestimento dei presidi operativi per i controlli sanitari di frontiera sulle merci in importazione.

An aerial photograph of the Port of Los Angeles. The image shows a large body of water on the left, with several piers and docks extending into it. A large ship is docked at one of the piers. On the right side of the image, there is a large industrial area with many buildings, parking lots filled with cars, and some storage tanks. A red circle is drawn around a specific area in the industrial zone, which appears to be a parking lot or a storage area. The overall scene is a busy port area with significant infrastructure and industrial activity.
